36 Hours with Eclipse-City to Siberia

Eclipse-City is happy to announce its revised eclipse-program in Siberia.

Our fourth 2008 eclipse program will take you to Novosibirsk (Russia).

This Program is our shortest program and therefore intended especially for travelers with time constraints.

Our journey will begin in Frankfurt (Germany). You will board one of our chartered Eclipse Clippers and fly directly into Novosibirsk, Russia's third largest city and the largest city in Siberia, right on the eclipse centerline.

When arriving at Novosibirsk, we will tour you through Novosibirsk and head for our specially built Eclipse-City Day Camp. The location is stunning and only there for us. 2 minutes and 20 Seconds of totality at our specially built day camp ashore *Novosibirskoje Vodochranilisce*, just one hour away from Novosibirsk. After the eclipse, we have prepared a Gala Dinner and Performance, festively arranged for Eclipse City to celebrate this unique event in an historic atmosphere. Eclipse City's guests for years already consist of a broad community of scientists, hobby-astronomers, representatives of the local business communities, and interested people from all over the world. Eclipse-City will host local VIPs, such as Novosibirsk's Governor, Mr. Viktor Tolokonsky or German Consul General, Mr. Michael Cantzler on its Day Camp.

Throughout the event, you will be accompanied by our multilingual staff, international astronomy experts, and of course, bilingual local guides.

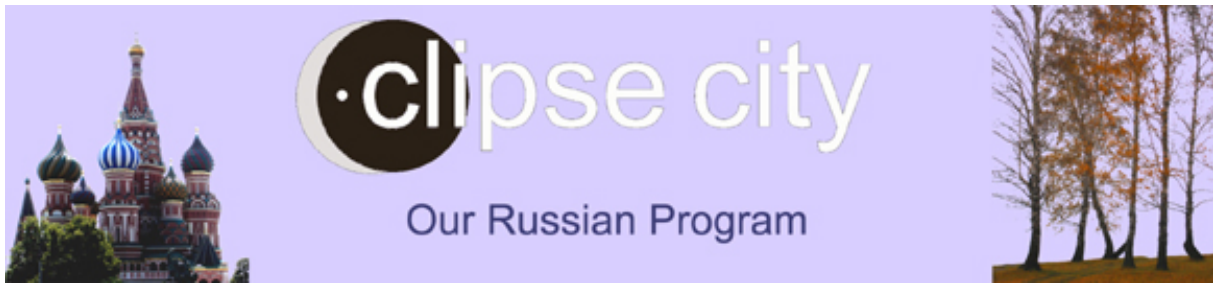

Depending on ATC permits, we may arrive at midnight back in Germany or early morning of August 2nd. If we have to stay through the morning hours of August 2nd, you will overnight in dedicated locations which Eclipse City has preventively organized for you. Your 36 hours with Eclipse-City in Siberia will remain like a dream.

Welcome again to Eclipse-City

Program 4

36 Hours with Eclipse-City to Siberia

Program 4: 36 Hours ex Frankfurt (Germany)

Thursday 31st – Saturday August 2nd 2008

Euros 1,590.- p.p.

Thursday, July 31st 2008 – The Adventure Begins

Our departure is from Frankfurt /Germany, where we will leave on Thursday July 31st 2008 late afternoon on our special Eclipse Clipper, with direct flight to Novosibirsk. We will arrive at Novosibirsk Airport on Friday August 1st, early in the morning.

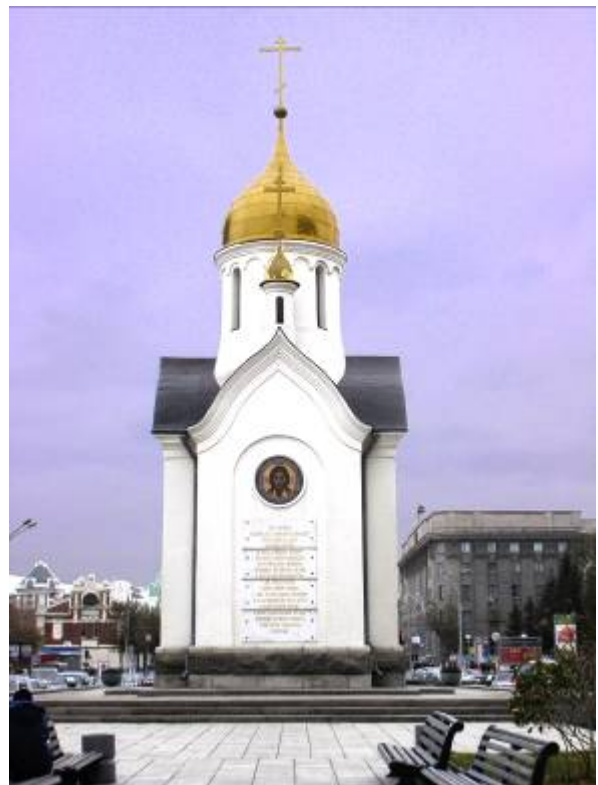

Friday, August 1st 2008 – Eclipse Day: 2 Minutes and 20 Seconds of Totality

Novosibirsk, formerly Novonikolayevsk after Tsar Nicholas II, is the capital of the Novosibirsk Oblast, in southern Siberia Russia, located on the Ob' River. Novosibirsk is the largest city and one of the chief industrial centers of Siberia. Manufactures include mining equipment, turbines, textiles, chemicals, and heavy machine tools. It is the seat of a university and a scientific research center and has opera and ballet companies. The city, founded in 1893 as a stop on the Trans-Siberian Railroad, received its current name in 1925. During World War II (1939-45) many industries were moved to Novosibirsk from the combat areas of European USSR.

While inspecting our viewing location, Eclipse-City directors met with the local vice-governor, diplomatic representatives, local tourism development officials and, Novosibirsk University Astrophysics directors.

One hour's drive from the city centre, on an enclave ashore the lake, we found our magic place. At the Eclipse-City Day camp, you will have it all: sufficient space, quietness and unpolluted air.

Now you want to find your own spot. There is ample of space at Eclipse-City grounds ashore the lake. Enjoy 2 minutes and 20 seconds of totality with reasonably good weather prospects.

Get ready for

1st Contact at 16:41:58 (altitude 39°, azimuth 243°)
2nd contact at 17:44:41 (altitude 30°, azimuth 258°)

11:45:51 UTC (17:45:51 Novosibirsk Time). 2 minutes and 20 seconds of totality. Sun's altitude will be 30°, azimuth¹ 2581°, coverage² will be 100%, magnitude³ at mid eclipse at 1.01893, the Moon/Sun ratio⁴ at 1.03832 and the umbral⁵ depth at 98.8%. Considering our location, we expect a spectacular and immaculate totality view over the Novosibirskoje Vodochranilsce horizon, as shown on our location picture.

3rd contact at 17:47:01 (altitude 30°, azimuth 258°)
4th contact at 18:45:47 (altitude 21°, azimuth 271°)

After the eclipse, you will enjoy a most wonderful sundown in our location, relax and have your thoughts reviewing your rich day's experience.

Then you can prepare to enjoy our

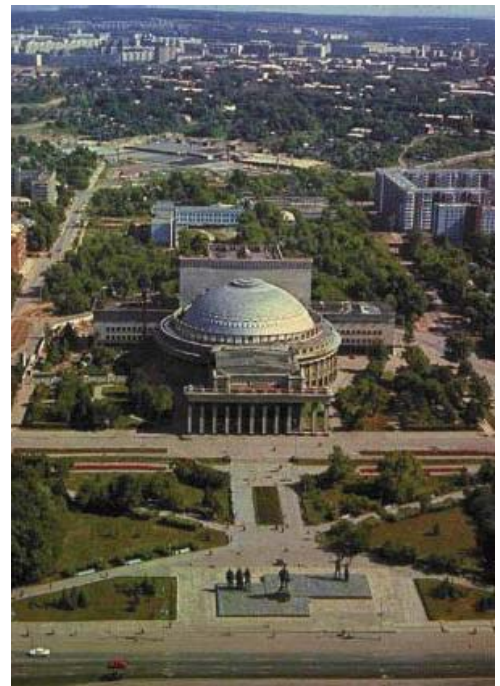

Eclipse Gala Dinner and Siberian Summer Show

A delicious, varied and beautifully arranged Gala Buffet will be awaiting you. Local and international VIPs are expected at Eclipse-City. Find your friends or make new ones and enjoy our Gala Show in this magnificent location: Russian singers and artists will close down our fantastic day.

If we have to stay through the morning hours of August 2nd, you will overnight in dedicated locations which Eclipse City has preventively organized for you. If we are arriving at midnight in Frankfurt and you can not connect to your final destination, we will provide overnight facilities.

Saturday, August 2nd 2008 – Farewell

Due to ATC, we may have to leave back to Germany on Midnight, between August 1st and August 2nd or in the morning hours of August 2nd. We anticipate to arrive before noon at Frankfurt International Airport, where you may connect to your home destinations. 36 hours of pure excitement will remain in your dreams.

¹ Azimuth: the Sun location: 0° = due North, 90° = East, 180 = South, 270 = West

² Coverage: the percentage of the Sun's disk covered at mid eclipse

³ Magnitude: the fraction of the Sun's diameter covered by the Moon

⁴ Ratio: the apparent size of the Moon to that of the Sun

⁵ Umbral depth: the percentage of the way from the edge of the eclipse to the centre line that this location is at

Program 4 is directed especially to all those clients wishing to experience the 2008 total solar eclipse in a unique location in Russia, but have not enough time to spare for other Eclipse-City programs.
